

Establishing the **Learning Commons**

the experience of
Run Run Shaw Library
City University of Hong Kong

Present at
International Conference on Information and Learning Commons
HKUST
11 December, 2007

Learning Commons @ CityU Library

- How do we define Learning Commons
- What is our strategy on space planning
- What have we done so far
- How are we going to manage
 - Space
 - Services
 - Human Resources

How do we define Learning Commons?

No definition suits everyone!

- **City University's**
 - Teaching Pedagogy
 - Outcome Based Learning
- **CityU Library User Behaviours**
- **Literature Review**
- **Site Visits**
 - USA, Canada, Singapore, Taiwan, China

CityU Library's definition

Common area to support out-of-classroom learning

Community of practice for

- knowledge creation
- Knowledge transfer

Collaborative teaching & learning

- through interaction

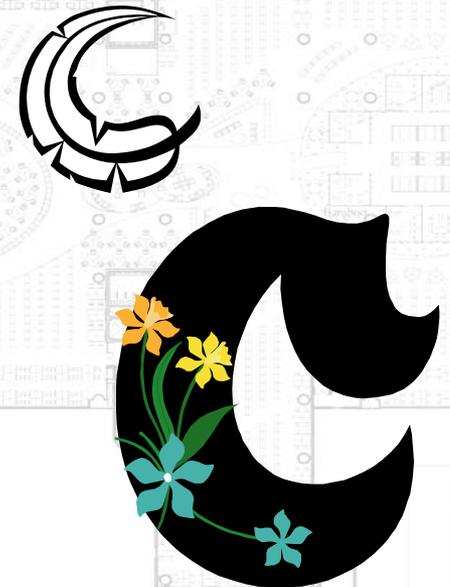

Cultural emphasis

Comfortable environment

Conducive to learning

Combined services

- Reference desk + IT Help desk

Library Space Planning Strategy (1)

Library Space Management Models

The diagram illustrates the evolution of library space management models. It features a grid with five columns representing different models: Archive, Closed stack Library, Open stack Library, and Learning Commons. A blue arrow labeled 'Existing model' points from the Archive column to the Open stack Library column. A red arrow labeled 'Future Model' points from the Open stack Library column to the Learning Commons column. Below the grid, two rows show hybrid models: 'Shatin Archive' with an arrow pointing from the Archive column to the Closed stack Library column, and 'Campus Library' with an arrow pointing from the Open stack Library column to the Learning Commons column.

	Archive - For storage - No reader's services provided	Closed stack Library - For the storage of special collection and rare used items. - Reader's services with limited reading space - Can accommodate a few readers to do their research there	Open stack Library - To provide general reader's services, such as loan and material browsing.	Learning Commons - To provide a multi-functional, open and flexible environment to enhance new learning activities such as group study, project-based learning, and the innovation of new knowledge.
Shatin Archive	(Hybrid Model) →			
Campus Library			→	

Future Model

Library Space Planning Strategy (2)

Positioning

Kowloon Tong	HK\$466.68 (average price of English book: HK\$392)
Shatin Archive	HK\$40+

Campus Library

- Area: 11,628 sq. m.
- To provide general reader's services
- To keep **700,000** volumes of books
- Learning Space: **60%**
- Stack: **30%**
- Services and Support: **10%**

Shatin Archive

- Area: 3,496 sq. m.*
- Mainly designed for the storage of special collections, and to provide space for a small number of users to do their research there.
- To keep **700,000** volumes of books
- Stack: **80%** (standard shelves + compact)
- Learning/Research Space: **10%**
- Services and Support: **10%**

*Currently, only 2,952 sq. m. is belong to the Library.

What have we done so far?

- **Obtain Budget**

- Applied for University and Government funding

- **Office Relocation**

- **Professional Consultancy**

- Strategic study and planning of the Library**

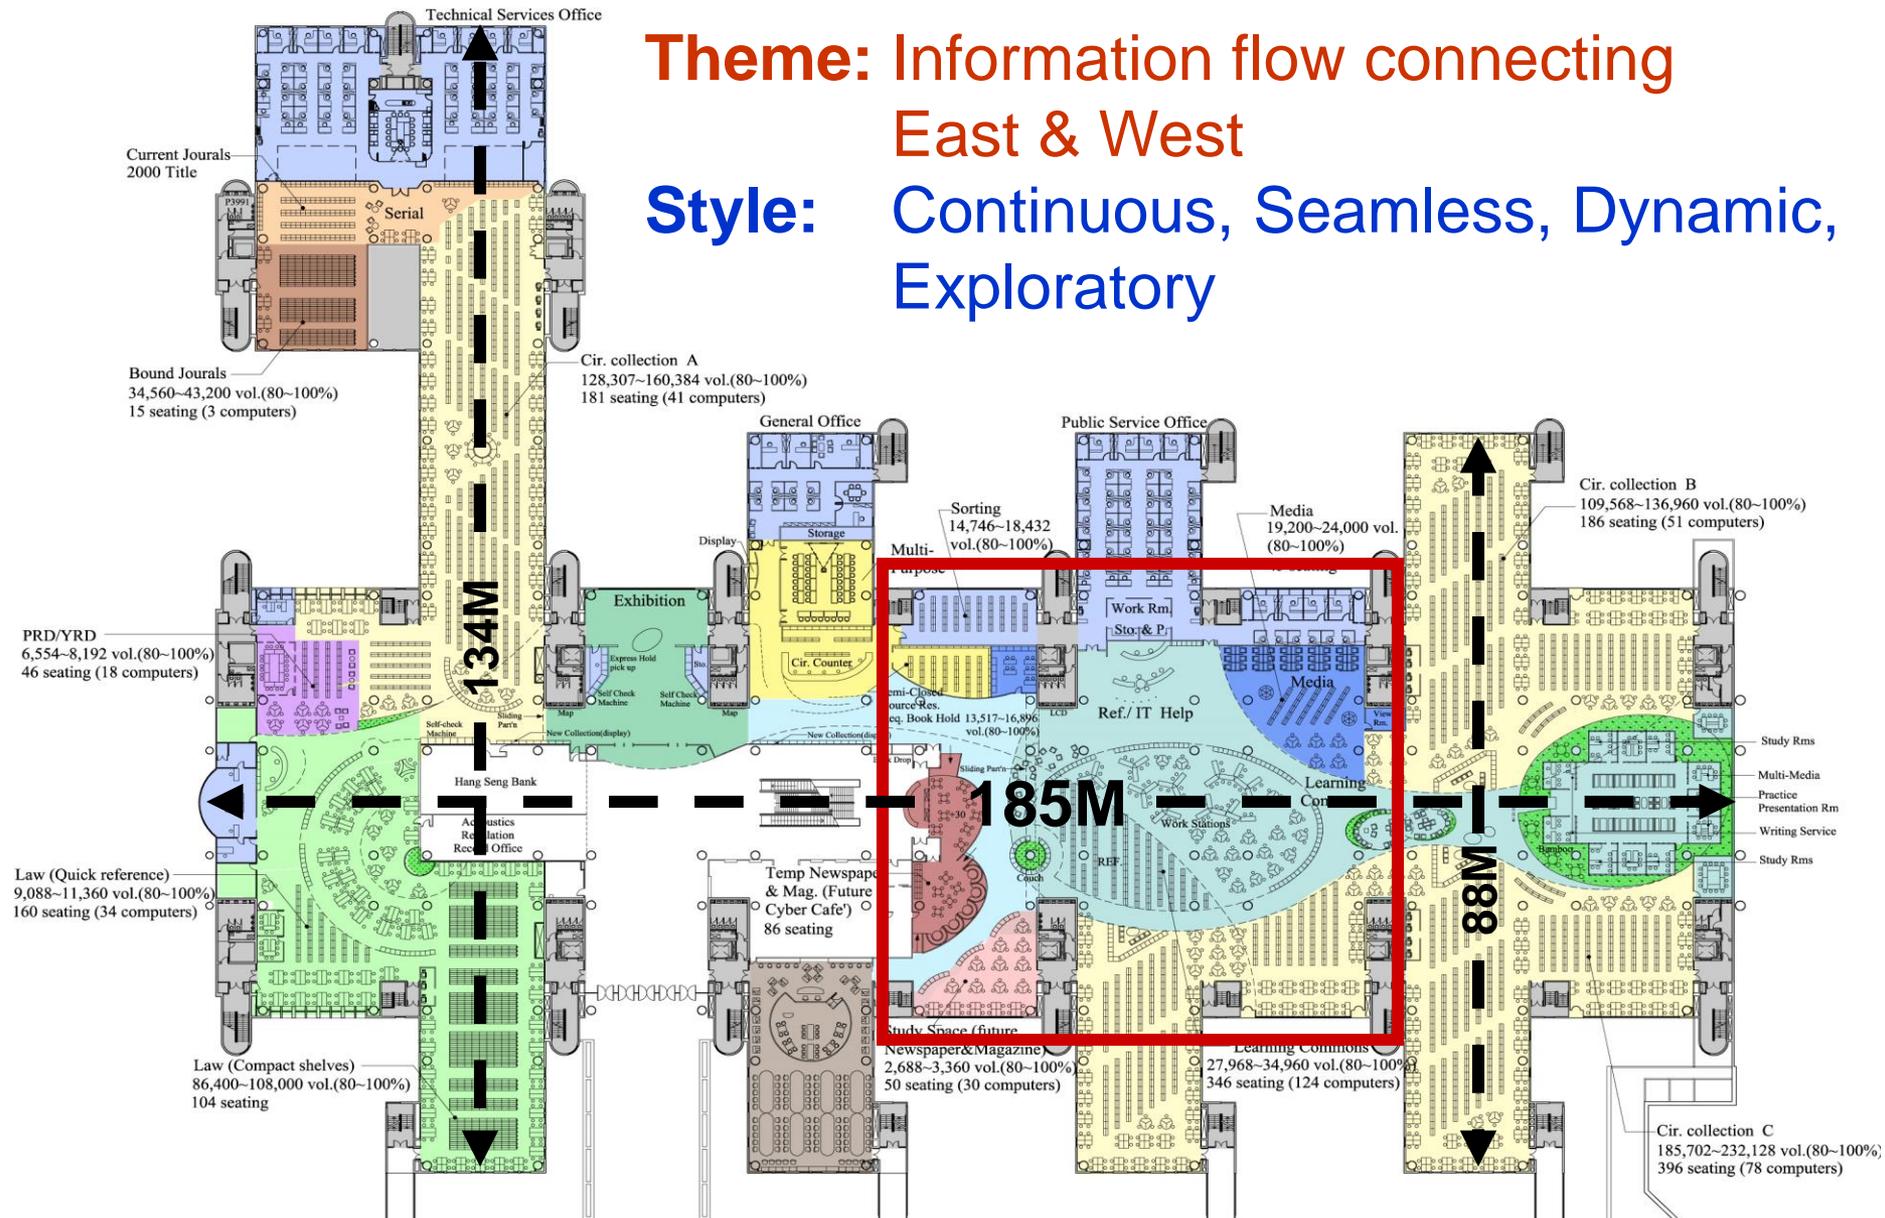

- Library's size, existing facilities, space characteristics, and problems facing
- Usage rate of existing collections and facilities
- Workflow of Library staff
- Comments and suggestions from users and staff

- **Concept Development and Spatial Design**

Recommended Concept Drawing

Theme: Information flow connecting East & West

Style: Continuous, Seamless, Dynamic, Exploratory

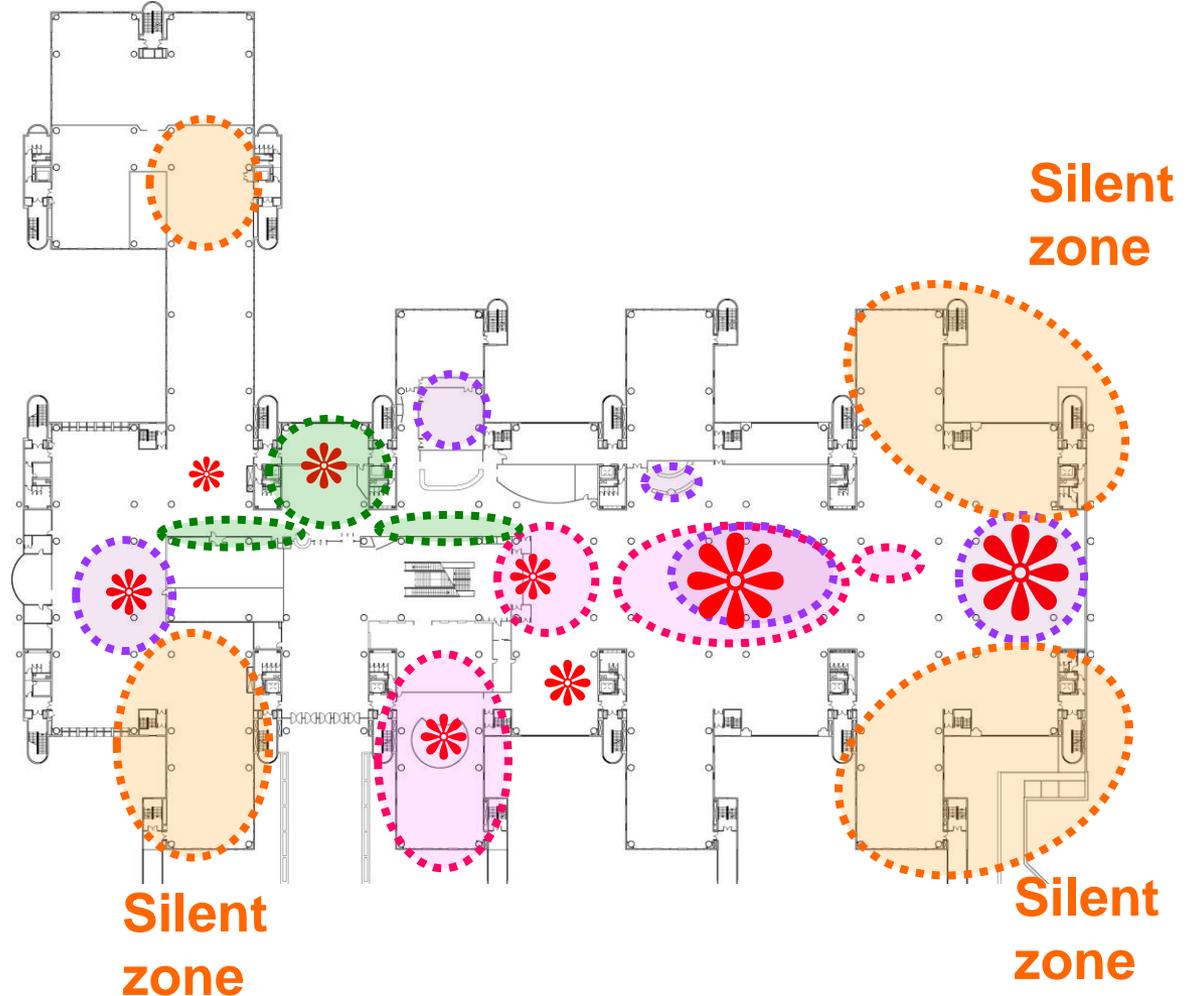

Some Basic Principles

Create Focal Points and Variety of Spaces

- Focal points *

Zoning :

- Inspiration zone
- Interaction zone
- Learning zone
- Silent zone

Some Basic Principles

Library Space – Support New Learning Activities

Workstation for individual study

Workstation for small study groups

Group discussion rooms

Workstation for group study

Some Basic Principles

Better Seating and Environment

Preferred seating/study spaces

- ❖ Comfortable furniture and setting
- ❖ Seating by windows
- ❖ Individual study carrels
- ❖ Workstations with high-end software
- ❖ Sofas
- ❖ Seating with planters
- ❖ Extended desk width

Communication & Collection of Feedback

– **Public Forum**

– **Survey**

– **Sharing Sessions**

- University senior management
- Academic units
- Administrative units
- Specific user groups (e.g. users with disabilities, student association)

Staff Briefing and Training Sessions

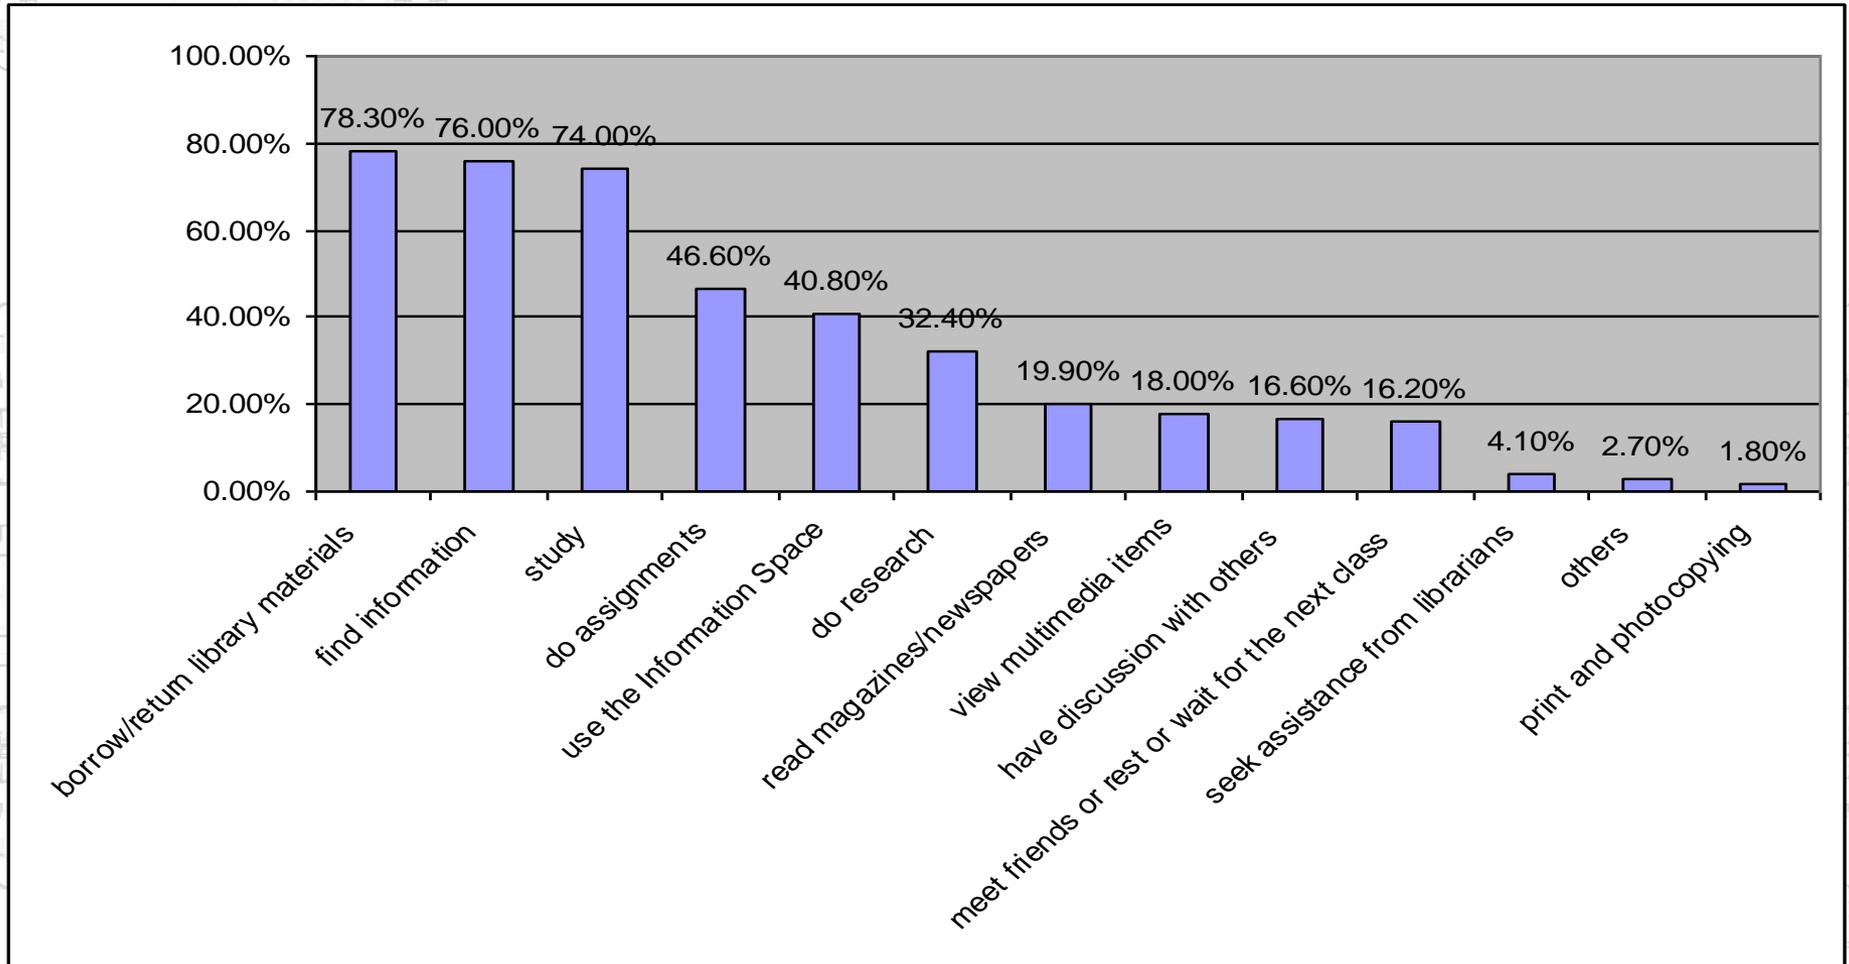

Staff Training Session 2
Moderator 主持

Facilities Management
Office (FMO)**

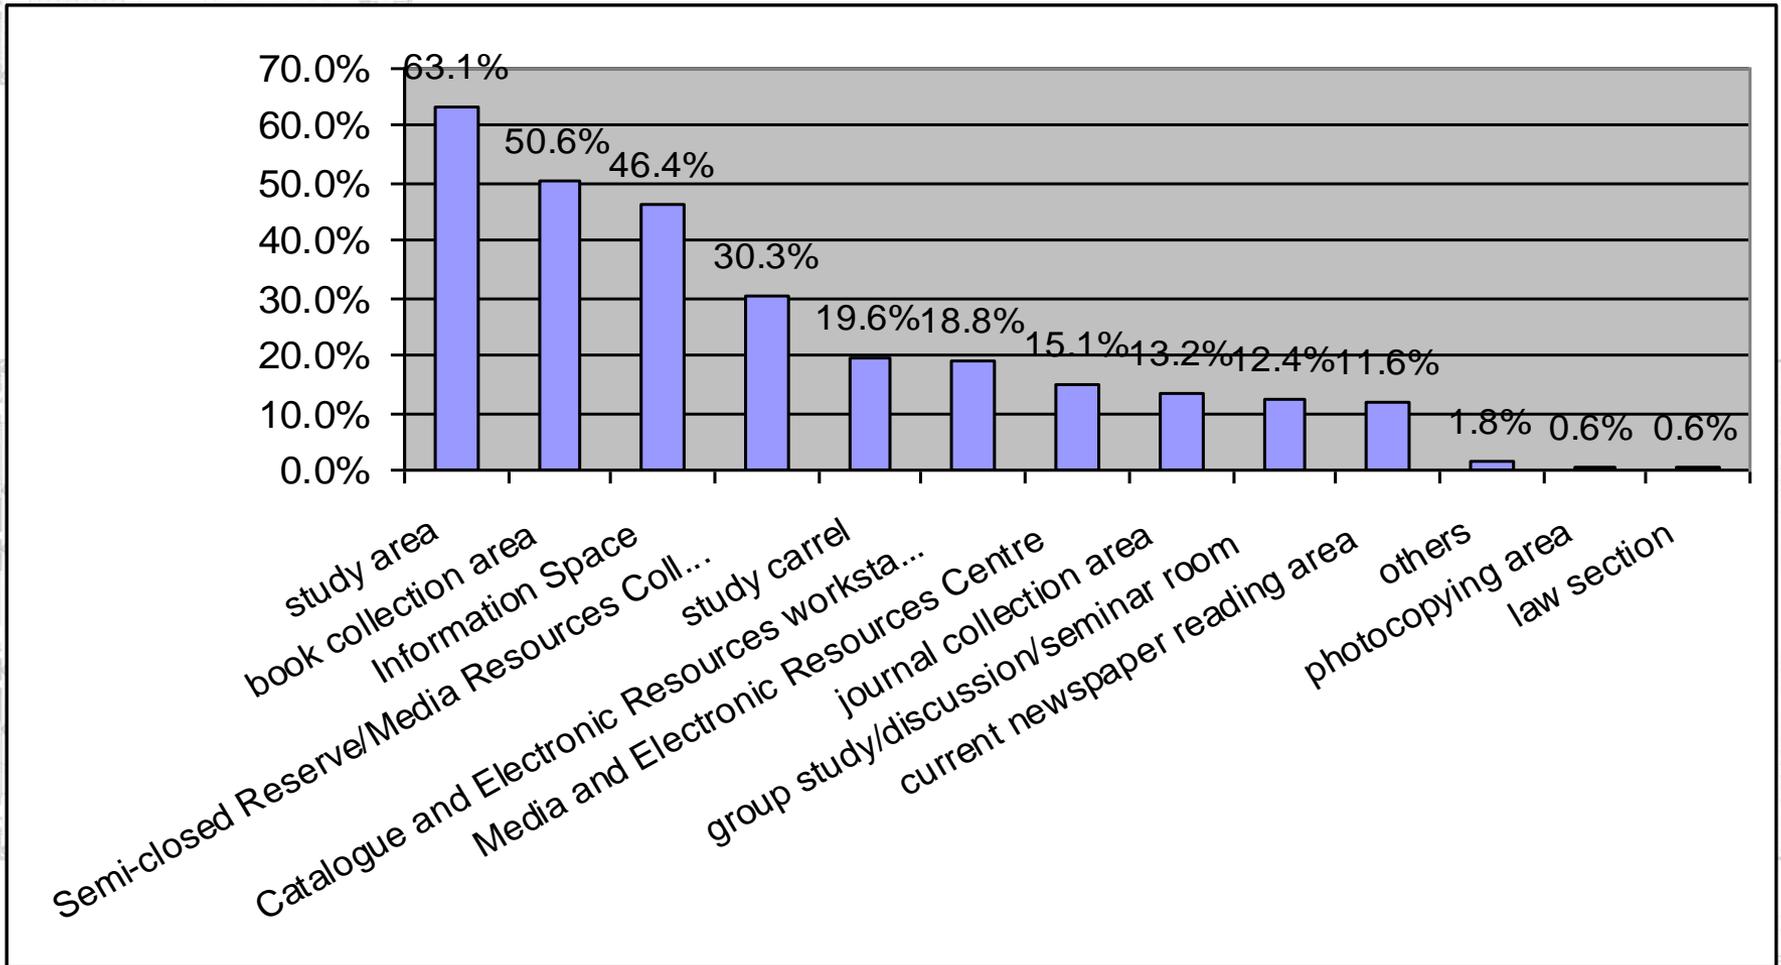

Survey Results

I visit the Library mostly to

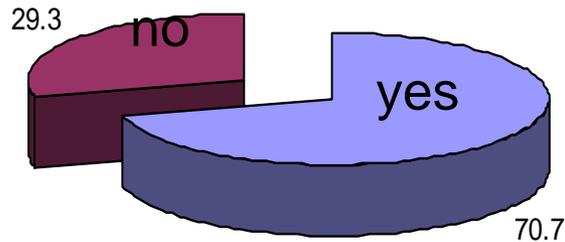

Survey Results

The places/areas in the Library I normally use are

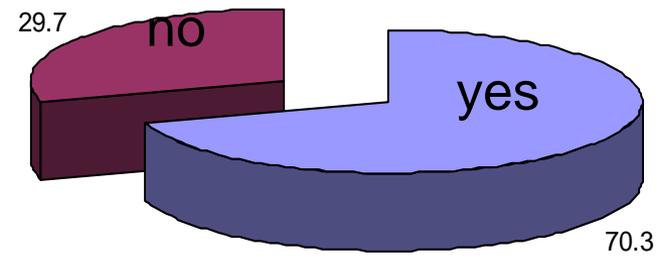

Survey Results

Light snack/drink should be allowed in a designed area of the Library?

- Light snack/drink should be allowed in a designated area only (such as cafe).
- Food should not be allowed in the Library at all times

Noise and discussion should be allowed in a designed area of the Library?

- Noise and discussion should be allowed in a designated sound proof area
- Noise should not be allowed in the Library, including discussion and cell phones

Promotional Activities

- **Exhibitions**

- The Renovation Project
- Today's Libraries –other libraries as examples

- **E Newsletters and Email Broadcasting (EBS)**

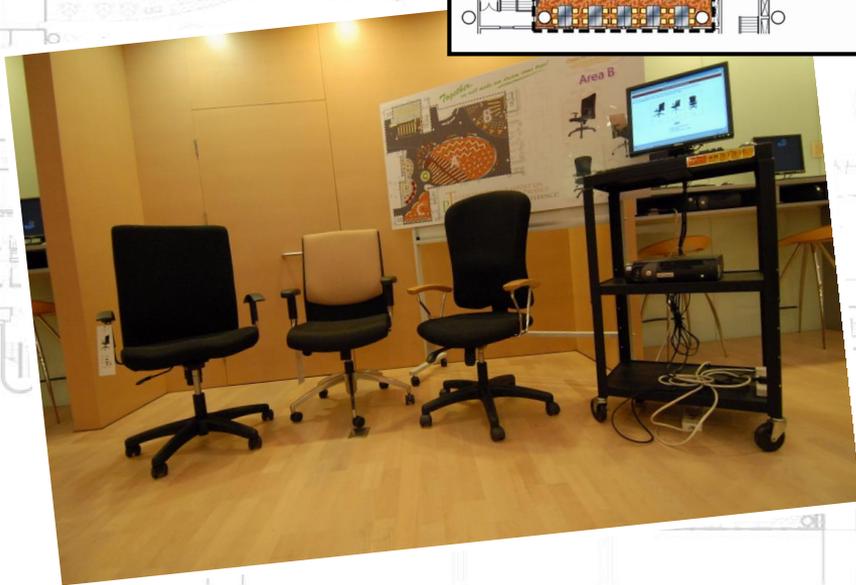

- Background/Rationale of renovation
- What is Learning Commons
- Major disturbances/Temporary measures
- Renovation progress updates

- **Video**

- Illustrate why a large scale renovation is needed

- **Website**

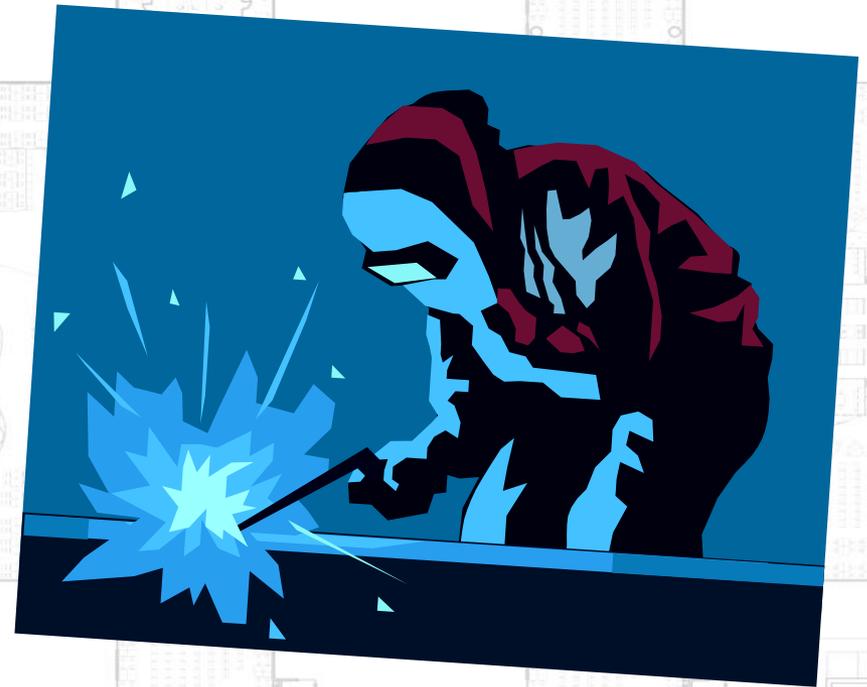

Furniture Trial Zone

Learning Commons – Part 1

Facts

- **Construction**
 - Began in July 2007
 - Completed in November 2007 (in 2 stages)
- **Total Area Renovated**
 - 3,200 sq. m.
 - = 1/3 of the whole Library
- **300 Seats**
 - 30% for quiet discussion
 - 70% for individual study

Daily operation & services was not affected

Learning Commons – Part 1

Main Passageway

Learning Commons – Part 1

User/Library Needs	New Facilities	Special Features
Feel they are welcomed Ask directional questions	Information Counter	Served by specially trained staff and internship students Collaborative with teaching department in the student internship programme - encourage more students to participate in library services
High tech computer facilities	The Oval	Computer workstations (also for wheelchair users) Dual-monitor High speed printers
Work alone with immediate help (both ref and IT) when necessary	Combined Counter (Ref + IT Help)	One-stop assistance
Discussion & work with friends on group projects/ Library events	Library Lounge	Collaboration with other University units e.g. Reading promotion scheme
Read leisurely in an informal but quiet environment	Leisure Corner	Newspaper + popular magazine 60" screen for watching cable TV news
Watch media with updated equipment Borrow with less staff handling	Media	Multi-media viewing booth with equipment Application of RFID (HF)
Controlled access of specific materials	Semi Closed	Application of RFID (UHF)
Students with disabilities	Special Needs Room	Reserved for users with special needs Equipment for visually impaired users

Newly Introduced Areas

Information Counter

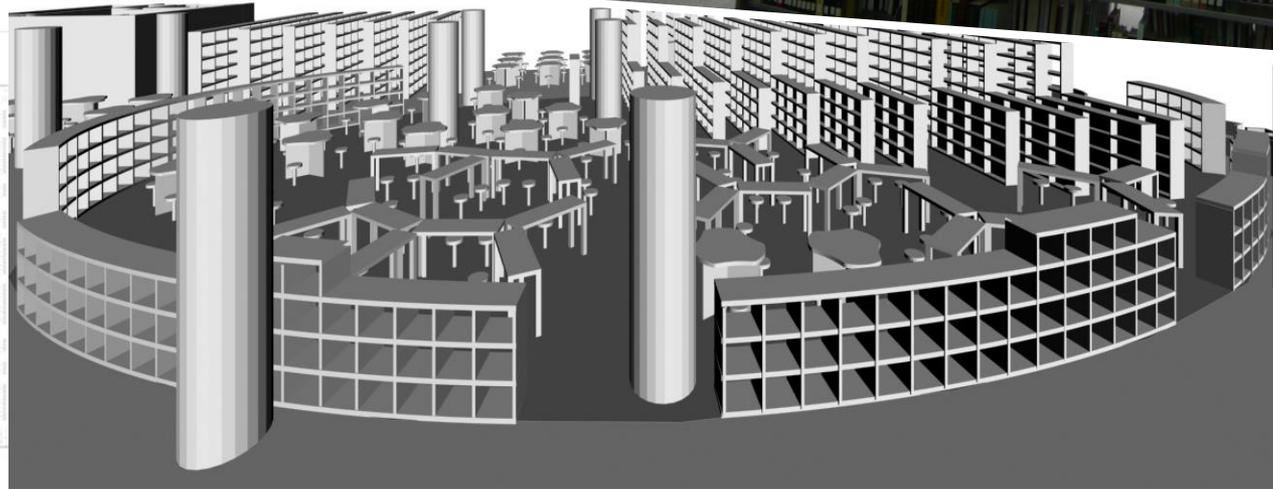

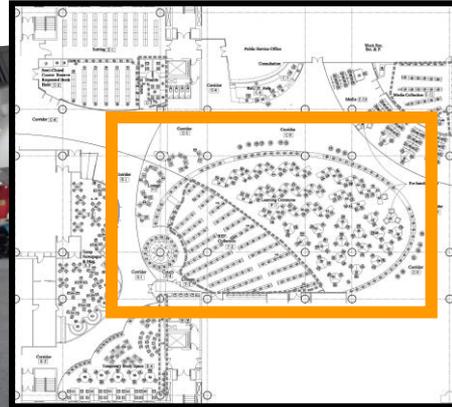

Served by

Information Counter Officer (ICO)
+
Students from internship programme

Newly Introduced Areas

The Oval

The Oval

**Library's PC
+
User's laptop**

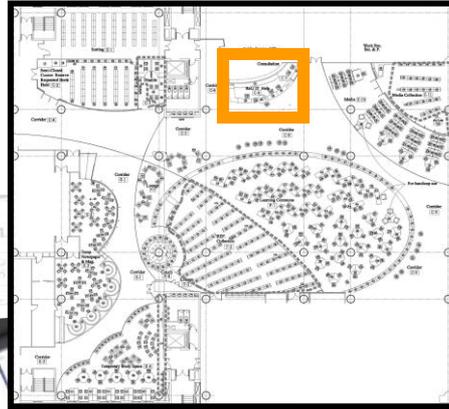

Dual Monitors

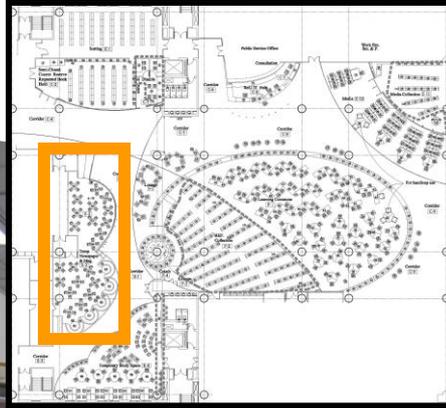

Newly Introduced Area

Reference Desk & IT Help Desk

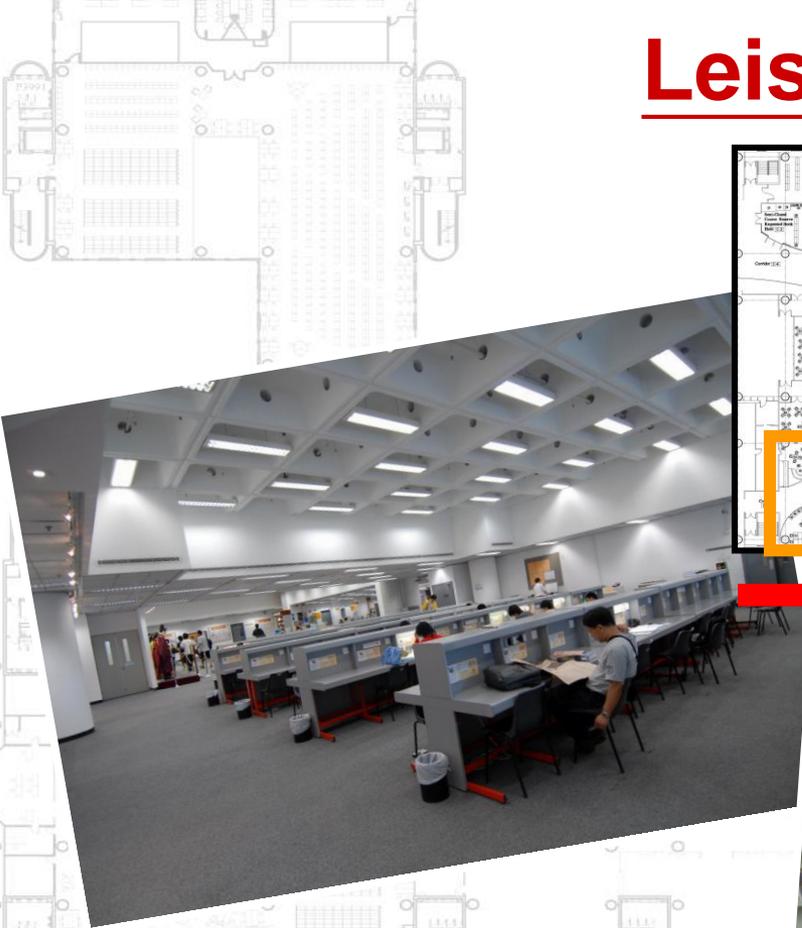

Newly Introduced Areas

Library Lounge

Newly Introduced Areas

Leisure Corner

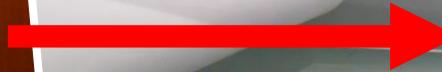

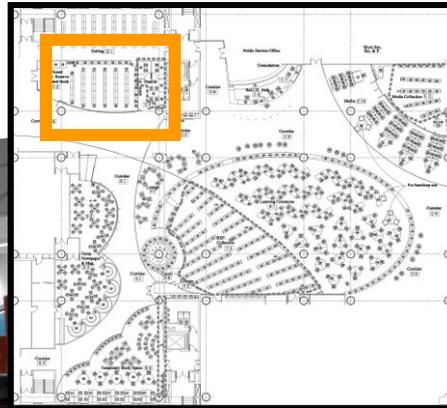

Newly Introduced Areas

Media Zone

Newly Introduced Areas

Semi-closed (Temporary Reading Area)

Newly Introduced Areas

Special Needs Room

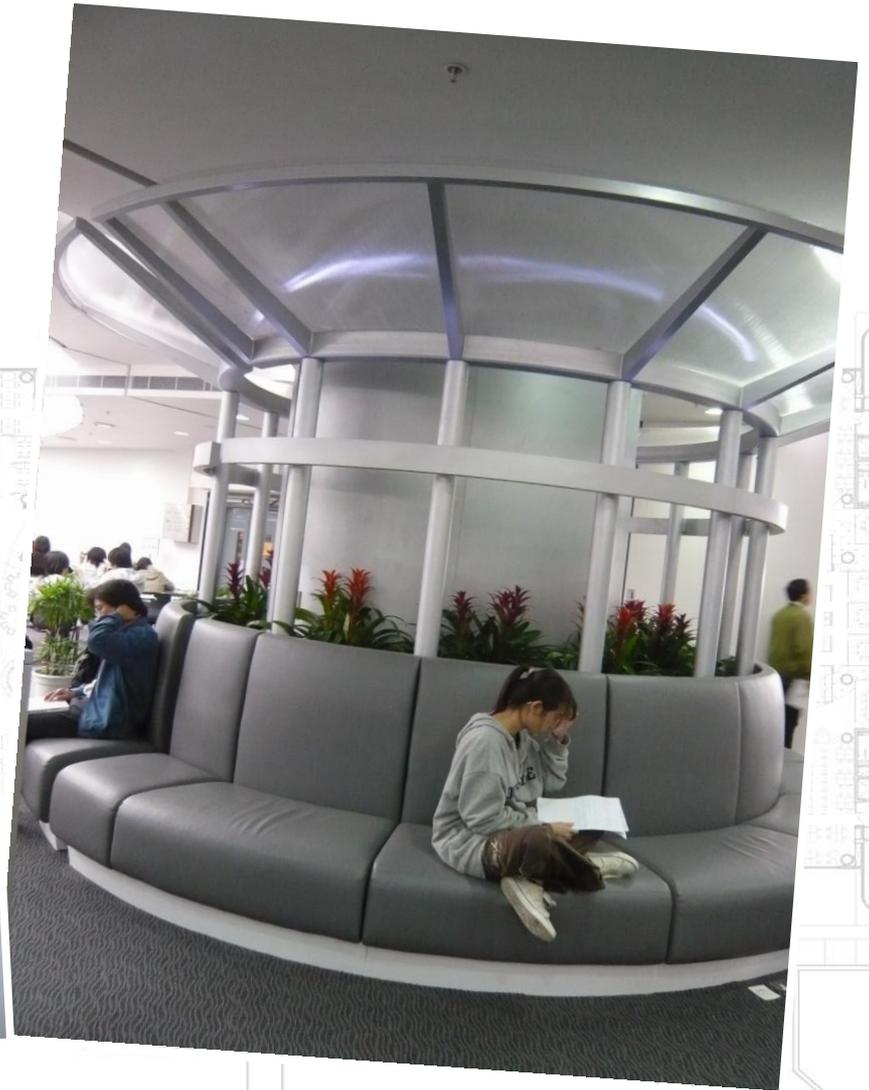

Others

LCD Wall

Informal Seating

Zoning

Building Services and Infrastructure

Improvement in Building Services

Building Services	Before	Now
Air Quality	5 L. per second per person	8 L. per second @ per person
Temperature	Inconsistent	More consistent

Infrastructure

Electronic Resources	Corresponding Infrastructure
 HK\$20M+	Power supply Network ports Additional hub room 

The Next Step

Learning Commons – Part 2

- Constraints
 - Construction - only in summer break
 - Daily operation & core services are kept open
- 3-3-4 scheme

Student Enrolment Projection

Year	2006/07	2012/13
UGC-funded FTE	21,500	25,000

Learning Commons – Part 2

Group Activity Facilities – More, More, More!!!

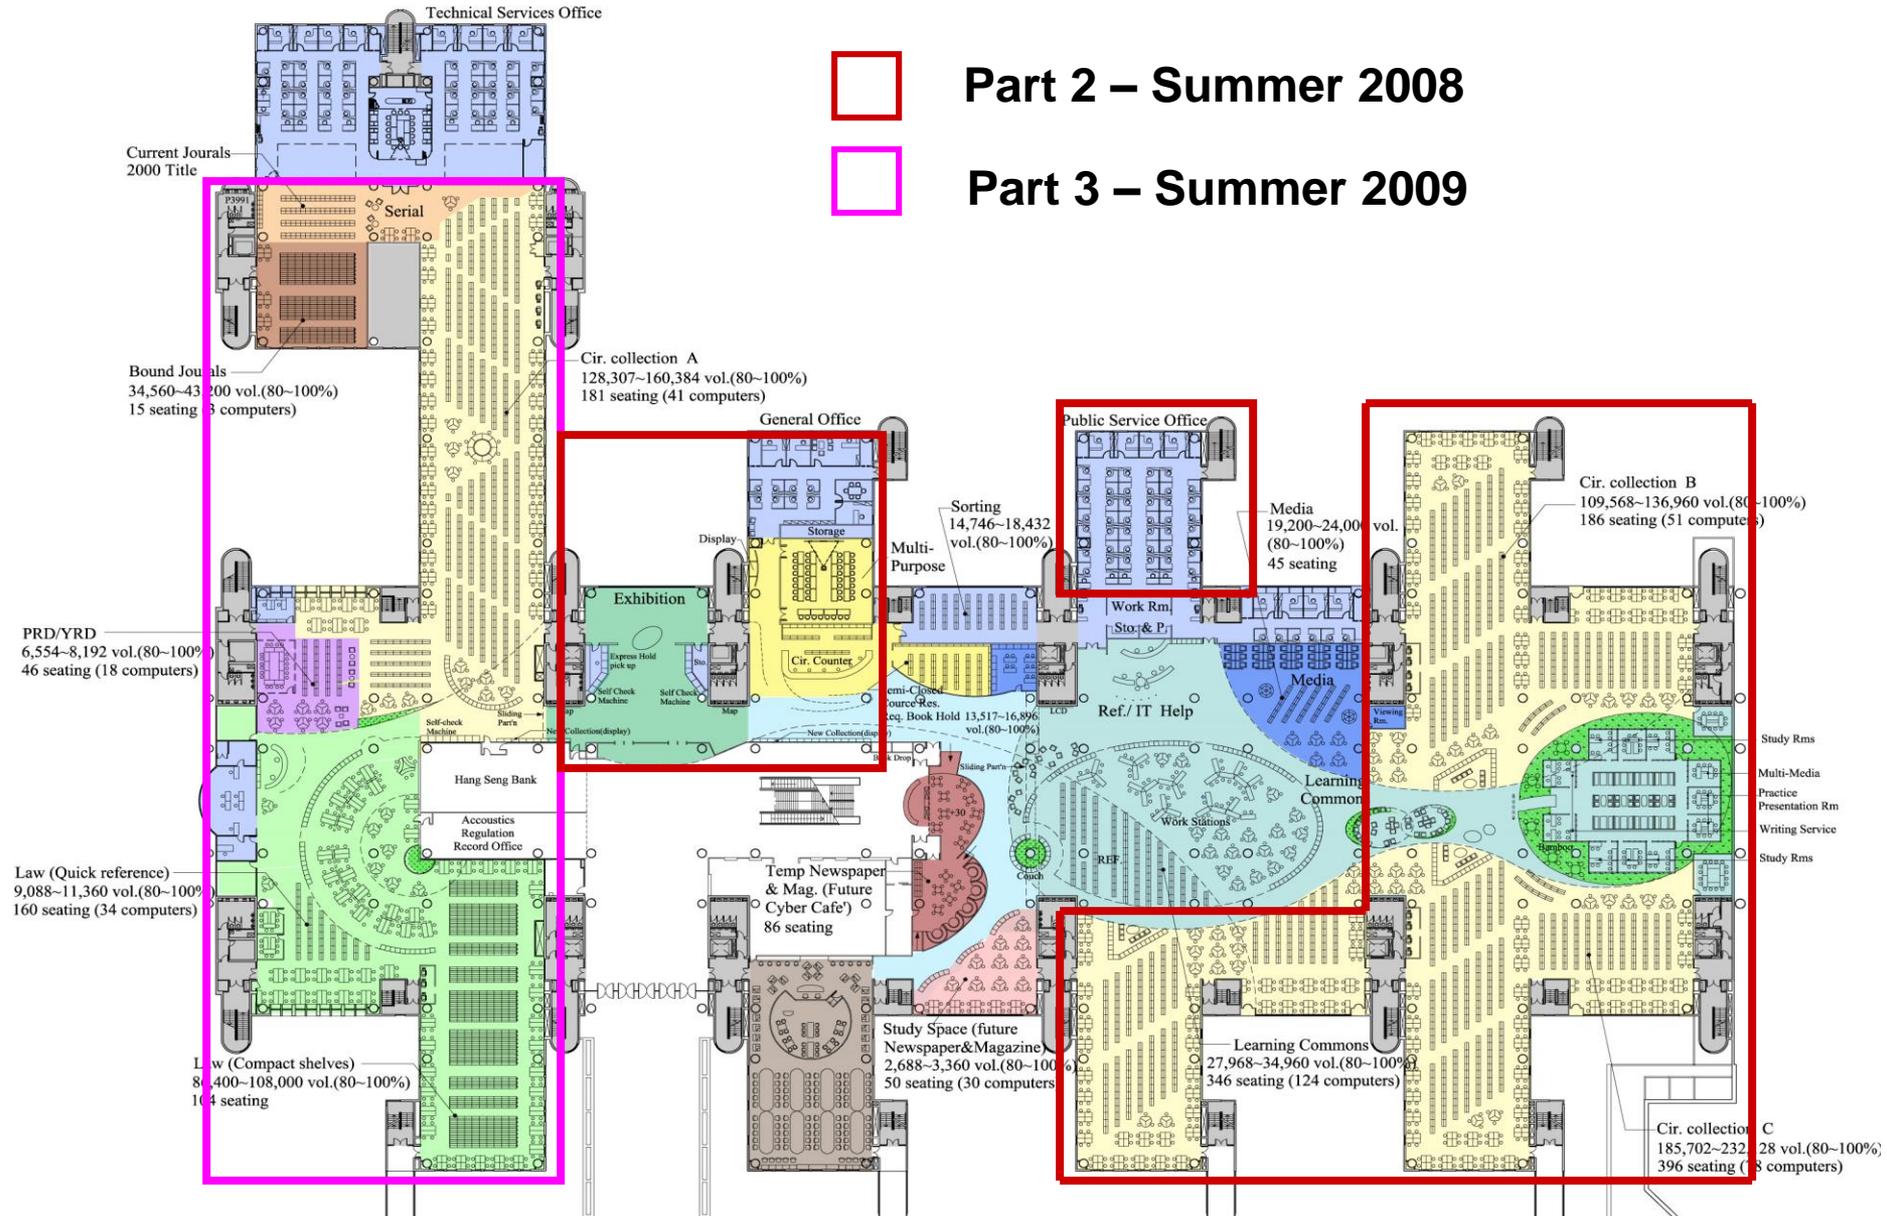

- **Peer Collaborative Learning**
 - Group discussion rooms
 - Group viewing room
 - Language clinic/other collaboration facilities

Oriental style Group Activity Facilities

- **Subject Villages**
 - Business and Law
 - Humanities and Social Sciences
 - Science and Engineering
- **Cafe**
- **Better Noise Controlled Zoning**

Learning Commons – Part 2 & 3

What does Learning Commons bring?

Continuing Changes

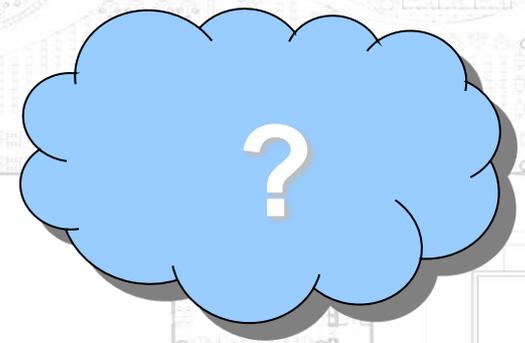

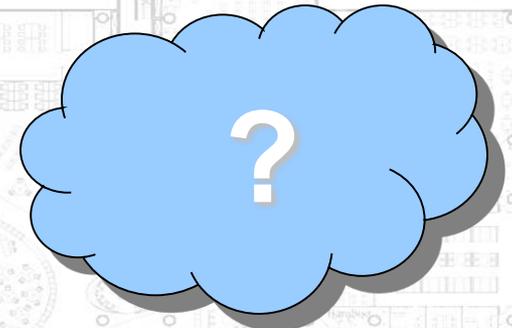

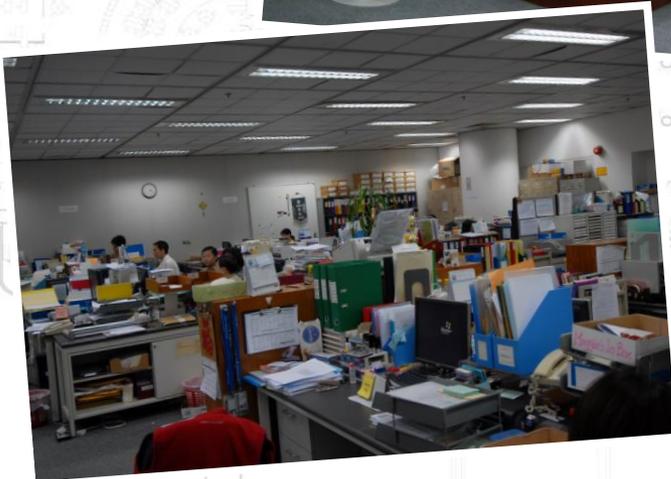

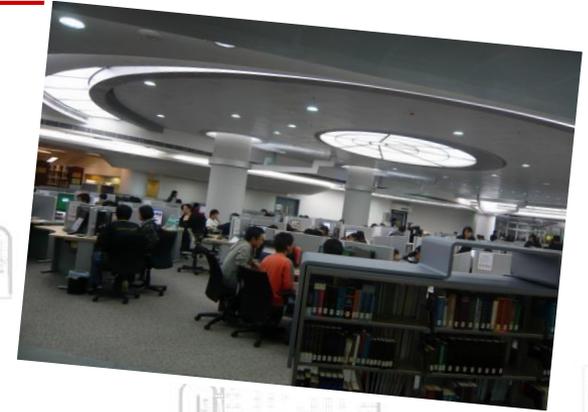

Space

Services

Human resources

Service Model

The Bank

Counter services

Self-help

E-banking

Service Model

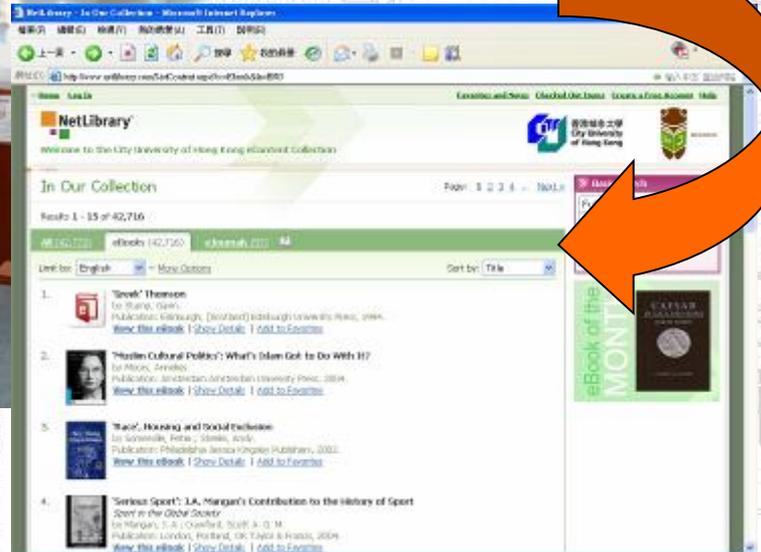

The Library

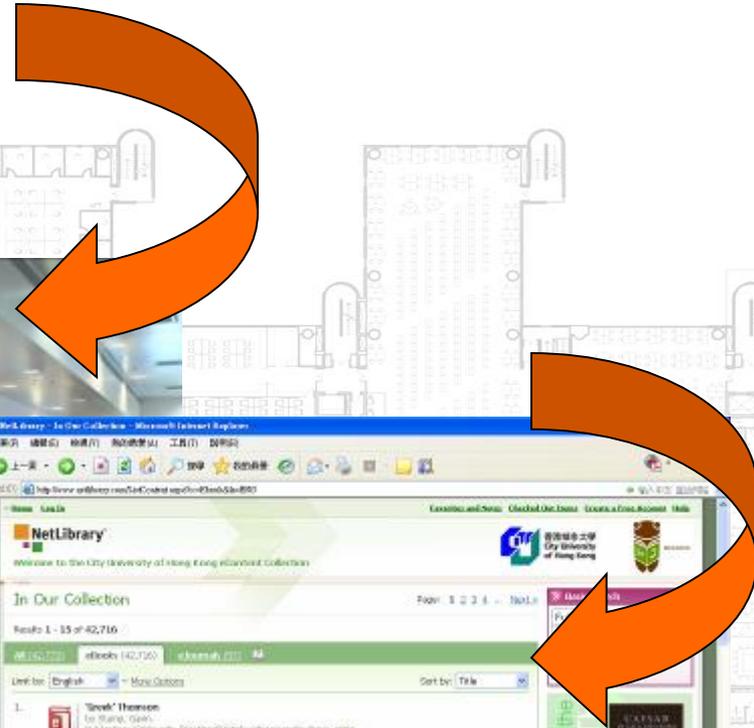

Counter services

Self-check

E-resources

Service Model

Concept of Merchandizing

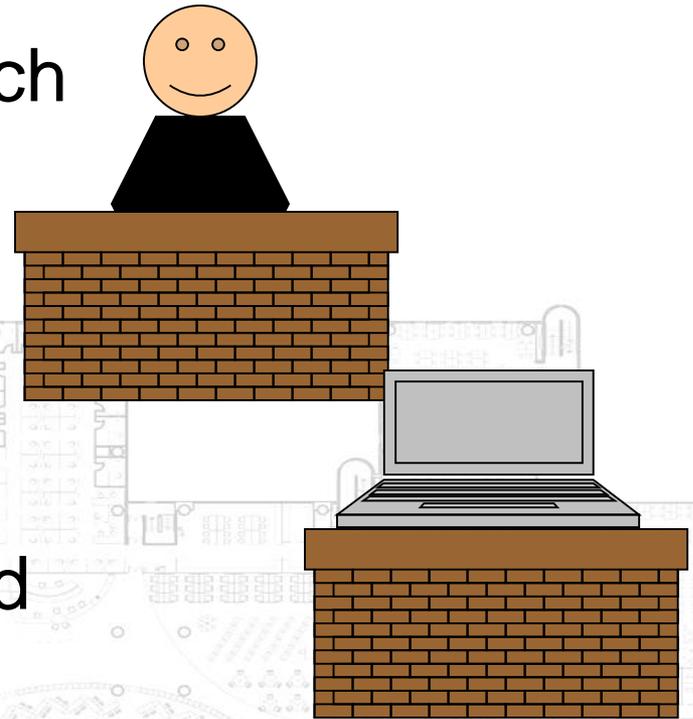

- Good Retail
- More Personal Services

Richmond Public Library, Vancouver

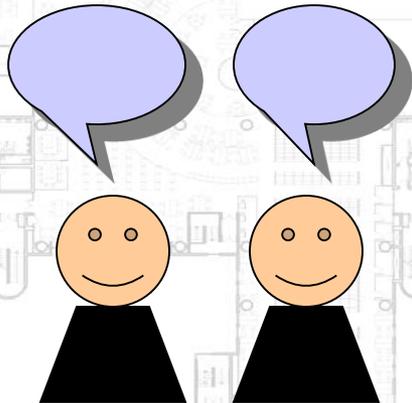

What is our new Service Model?

- Less library specialist approach
 - from counter to user services
- More self-help services
 - Self check
 - Self-pick up
- More electronic resources and services

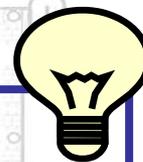

More Peer-to-Peer Learning

- Collaborative learning activities
- Student helpers

Human Resources

New Services
– **Require New Staffing Structure**

Traditional Staffing Structure

Traditional library duties

New Staffing Structure

Embrace new vision of learning and education

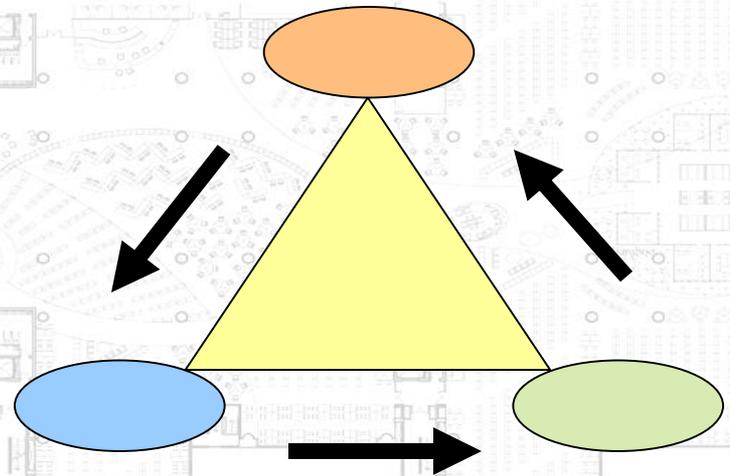

Human Resources

Budget Limitation

Staff Recruitment

Staff Re-deployment 

Run Run Shaw Library
RECRUITMENT

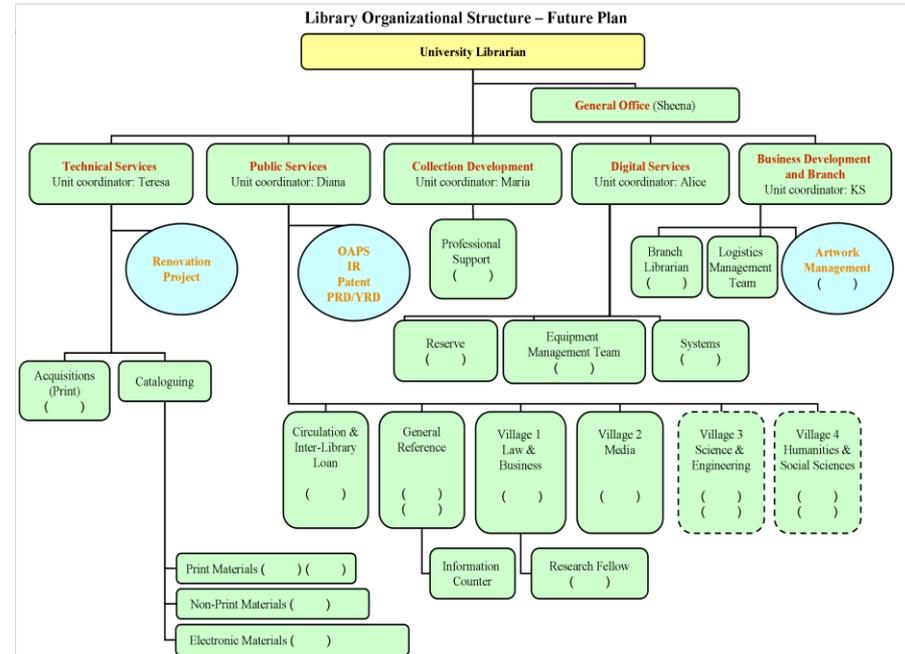

How do we manage?

(A) Organizational Restructuring

New working teams to provide new services

- Information Counter Officer (ICO)
- Equipment Management Team (EMT)
- Teams to manage Subject Villages

How do we manage?

(B) Collaboration

Partnership with Academic Departments and Units

- Student internship with CTL Dept

More Student Involvement & Participation

- More mutual understanding

- Training from CSC

- RFID development with EE Dept

Other Collaboration

Reading Promotion Scheme with EDO & Dean of student Learning

Outstanding Academic Papers by Students (OAPS)

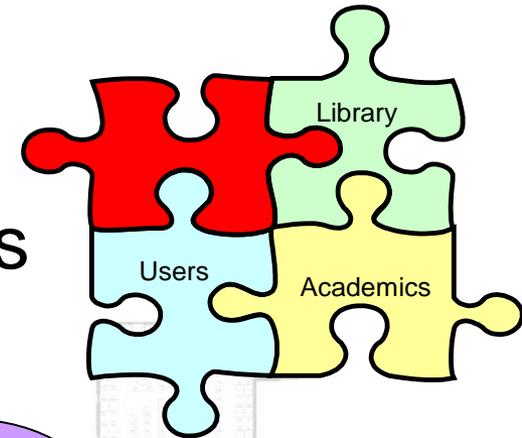

Language Enhancement Scheme with EDO

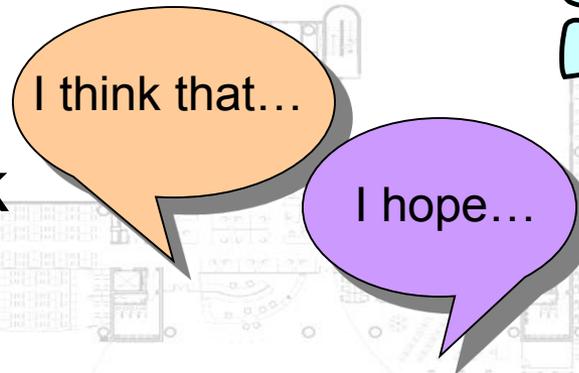

What are we facing?

Ongoing Needs

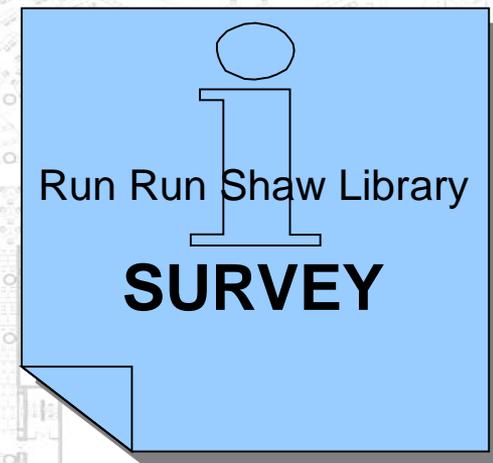

(A) Interaction with Users and Academics

(B) Collection of Feedback

(C) Continuing Assessment of
Space
Services
Human Resources

Future Challenges

How to Measure?

Users like the
Learning
Commons?

No. of
User/Access?

Cost Benefit Analysis?

Knowledge Creation
&
Knowledge Transfer
