Check out the Nap Pods on LG1 of the Library, near the far stairwell!

Why are they here? What are they for?

Research suggests that a short nap during the day can help you work better, think more clearly, and balance your emotions. The Nap Pods are designed to give you a perfectly timed, energy-reviving 20-minute nap to relax for your health & enjoyment.

How do they work?

The Nap Pods let you recline at a comfortable sleeping angle, while playing ambient music through your headphones, and showing diffuse colored lighting to help you relax and refresh.
